

MIMS MOTORS

THE MIMS E2 PLUS 2020 BROCHURE

STYLISH. AFFORDABLE. DYNAMIC. ELECTRIC.

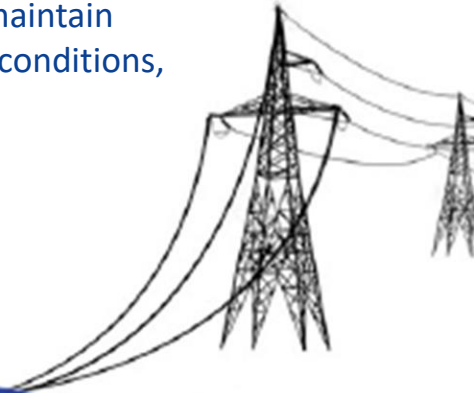

FAST FORWARD TO NOW

Mims Infinity Technology

The Mims Infinity Drive Module is a proprietary energy system that creates power to the onboard battery array. It supplies enough power to maintain constant and fluid energy under both strenuous and harsh driving conditions, depending on the needs of the vehicle.

Saltwater by Truck or Pipeline

Clean Renewable Energy

Clean Potable Water

A traction battery array system utilizes saltwater as an electrolyte to create DC power to the AC inverter control. During this process, either an onboard salt water exchange system in the batteries or saltwater exchange recharge stations are utilized. The byproduct is gray water that is put to use by local city's as filtered drinking water or city landscaping.

The E2 Plus cutting edge power system allows 1,000 miles per charge.

The E2 Plus is a carefully crafted and highly developed electric vehicle, with the design elements and quality of many classic automotive brands and the technology to take any owner into the future of electric cars.

- Mims Motors E series vehicles with a 1,000 mile range, powered by the proprietary Infinity Drive Module battery system.
- On board recharge and electrolyte swap capacity
- At the 1,000 mile interval mandatory maintenance check is required.
- Safety check service interval: 6,000 miles
- Battery system requires service at 24,000 miles or 2 years whichever comes first
- 10 Year power train 100,000 mile warranty.
- 5 Year 50,000 mile bumper-to-bumper warranty.
- Front, Rear and All wheel drive available

MIMS MOTORS

- 80 kWh blade source battery system
- DCPC electrolyte swap unit 33 kWh continuous flow/storage system
- 6 block braking system
- Wheel disc brakes
- Dual front airbags
- ABS
- Dual Cryogenic Nitrogen filled front airbags
- 7" LCD smart screen with entertainment controls & external USB audio interface with subwoofer
- Black Alloy rims
- Mechanical steering resistance
- Power windows & doors

MIMS MOTORS

STANDARD FEATURES

Models	E2 Plus
Status	2020 Comfort models
Market price guide	\$28,000 USD
McPherson independent suspension/Spiral link	
Main drive visor with paper clips	
Electric power steering system (EPS)	
Fujia visor with mirror	
155-65 R13	
3 break resistance	
Remote keyless entry (with a car finder function)	
High-rigidity high-strength steel	
High strength anti-collision beams	
Chrome surface of the rear plate	
4 High fidelity speaker audio system	
ISO FIX child safety seat Interface	
146" x 65" x 61" (LWH)	
92" wheelbase	
Large storage space	

MIMS MOTORS

A variety of colors and the bodies to meet your individual needs.

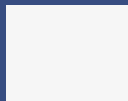

RISSY RED

BAM BAM BLUE

CHRYSTAL LYNN SILVER

SLICE OF MIDNIGHT BLACK

AUTUMN BROWN

MIMS MOTORS

On-Board Technology

The E2 Plus features in-dash screen technology powered by Universe Networks.

- Display's 2D, 3D, S3D content without the need of goggles
- Depth Sensing 3D Camera system
- Touch Screen
- Bluetooth
- NFC
- Wi-Fi (802.11b/g/n)
- Touchless Control
- Assist
- Fingerprint recognition
- Water Resistant (30 Mins)
- Micro USB Fast Charging
- Voice Recognition & Assistance System
- World Device
